

# Two Shores GIN

L.A. DISTILLED  
CALIFORNIA BOTANICALS

Two Shores Gin had its inspiration in Scotland decades ago when a young girl watched her dad make gin in his greenhouse. Now, a resident of Laguna Beach, with the help of a 12th generation London distiller, the recipe was crafted using California botanicals.

Two Shores is distilled in small batches in L.A. giving it a distinctively modern British gin quality.

## SERVE

Two Shores gin is smooth and well balanced. Perfect for sipping, cocktails or in mixed drinks.

## BOTTLE

The bottle and glass stopper are designed to be fully recyclable or re-used.

## AWARDS

Named for its “London Tradition and California Spirit,” this satin-textured beauty had us wowed for its approachability. Made with California botanicals, including pepper tree, dragon fruit, and prickly pear, we found its aromas of vanilla, lavender, and fresh linen charming. A cloud of marshmallow and a zing of pepper mark the finish. Meredith May, Publisher. Tasting Panel Magazine
